

## Opening a test center at the Technological University of Tajikistan

On December 12, 2018, with the support of the Ministry of Industry and New Technologies of the Republic of Tajikistan and the financial support of the I Love Tajikistan Fund, Huaxin Gayur Cement LLC, the test center was opened at the Technological University of Tajikistan.

The opening ceremony was attended by Deputy Minister of Industry and New Technologies of the Republic of Tajikistan Ruzizoda A., Deputy Minister of Education and Science of the Republic of Tajikistan Odinazoda B., Vice President of Huaxin Cement, Ms. Liu Yunxia. Rector of the Technological University of Tajikistan Amonzoda I.T. giving a speech and thanked Huaxin Cement company for financial support of the organization of the test center.

The center is equipped with 25 computers, an electronic board, a multimedia projector and 25 fingerprint scanners. The functioning of this center allows the university during intermediate and final exams to conduct computer tests at the same time for 25 students, and during training to conduct practical classes for one academic group to study the basics of information technology.
